

Condeco Desk Booking Screens.

The simpler, clearer way to manage and reserve flexible workspace.

Enhance your flexible workspace with our intuitive desk booking screens for desks. With simple touch-in, touch-out reservation functionality, our desk booking screens offer you a smarter way to manage your flexible workspace.

Free or busy – at a glance

The super-clear 3" touchscreen shows who is working in a space and for how long. It means no one starts the day off on the wrong foot and can get straight to work as soon as they arrive at their booked workspace.

Release unused space

If users don't check in on the device, the desk can be released for others to book, helping you reduce space wasted on bookings where no one turns up.

Friction-free working

The screen works effortlessly with our desk booking software and mobile app, creating an effortless experience.

Instant visibility of available space.

Our desk booking screens provide an intuitive solution to finding and reserving workspaces. They are designed to keep the workspace flowing and your workforce productive.

Each screen comes with a ring LED status light, which clearly indicates if a space is busy or available. The built-in RFID access card reader makes it simple to touch-in and touch-out for each booking. From desks to breakout areas, the screens can be mounted across your office to create a simple user experience for your flexible workspace that meets everyone's needs.

Key Features.

Touch to book

The screen has a simple and straightforward user experience that has virtually no learning curve. Just touch in and out with your RFID enabled access card.

Free or busy – at a glance

A clearly visible ring LED status light makes finding and booking an available desk quick and easy. Plus, the 3" touchscreen shows who is working there, and for how long so there's never any confusion.

Use the unused space

If users don't check in on the device, the desk can be released for others to book, helping you reduce space wasted on bookings where no one turns up.

Frictionless flexibility

The screen works seamlessly with our desk booking software and mobile app, creating an effortless experience for your flexible workspace.

Simple touch in, touch out

Simply touch the screen with your RFID access card to make or start a booking and touch out when you leave.

Highly visible ring LED lights

Easily see which spaces are available (green), awaiting check-in (amber), or booked (red) with visible LED status lights.

Color LCD touch screen

A high-resolution touch screen supplies excellent visibility from a wide viewing angle, showing the desk number and the name of the person who has booked the space.

Versatile mounting options

Desk edge, wall or desk partition – the desk screen has three flexible mounting options to support a range of workspaces, such as desks, cubicles or offices.

Easy deployment

Each screen is powered using a provided USB-C cable and programmed via a mobile app in a few simple steps.

Manage and monitor

All your screens can be managed from a cloud-based dashboard that includes usage statistics, device health monitoring with remote restart and automatic software updates.
